

Fuel Surcharge Program Details & Table Intermodal – Percent of Revenue

Run Rail Intermodal Fuel Surcharge

Run Rail may impose a percent of revenue fuel surcharge due to continued fluctuations in fuel costs. All Transportation services and Intermodal shipments will be subject to any Intermodal Fuel Surcharges implemented by Run Rail or imposed on Run Rail by others, regardless of price authority (including all contracts and agreements).

The Run Rail Intermodal Fuel Surcharge is applied to the freight invoice based on the shipping instructions (rail waybill) date. This is typically the in-gate date.

The Intermodal Fuel Surcharge is adjusted each Wednesday according to the previous week's Department of Energy's [U.S. Average Retail On-Highway Diesel Fuel \(HDF\)](#), which is updated later Monday afternoon. Run Rail will not issue a credit or refund if the HDF price falls below \$1.24. The surcharge is subject to change.

Fuel surcharge question should be forwarded to you Run Rail Intermodal Marketing Representative.
